## BOIL WATER ADVISORY 5/17/16

Dear Valued Customer,

In the early morning of May 17, 2016, the District experienced a water main break in your neighborhood. [Please see the map of the affected area on reverse side of the notice]. If your property is NOT identified on the map, you are not affected by this advisory. The break resulted in a loss of water pressure to approximately 20 homes along your street.

As a precautionary measure, the District is advising customers on your street to boil their water or use bottled water for all human and animal consumption until we receive satisfactory water testing results. The testing typically takes approximately 24 hours to complete. We will alert you when your water is safe to drink.

### Frequently Asked Questions - Can I use my tap water for ...?

Drinking	No	Coffee or Tea	No
Ice Cubes	No	Showers/Baths	Yes
Brushing Teeth	No	Washing Clothes	Yes
Baby Formula	No	Baby Bath	See Below*
Washing Vegetables/Fruit	No	Washing Dishes	See Below**
Preparing Food	No	Pet Water Bowl	Contact Veterinarian

\*You may wash babies or children as long as they do not drink the water. Do not let babies suck on a washcloth as they will ingest some water.

\*\* You can use your dishwasher if you use the sanitizing/heat cycle and commercial dishwashing detergent. You can hand wash dishes, rinse them in a diluted bleach solution – one teaspoon household bleach to one gallon water and let dishes air dry.

If you plan to boil your water for consumption, bring the water to a rolling boil for one minute. When it cools, refrigerate the water in clean covered containers.

Thank you for your patience. If you have any questions, please contact the following District personnel: Dave Stanley, Field Supervisor at 206-592-8912 or Mike Becker, Operations Supervisor at 206-592-8920.

Sincerely

Highline Water District
